

RADIATION ONCOLOGIST

MEDICAL ONCOLOGIST

# Rewarding

Nathan B. Green, DO

“One of the things I find most rewarding is being out in the community and going to events like Light the Night or Relay for Life and seeing patients that have been treated here. They come up and embrace us, smile, laugh and sometimes cry about the things they've been through. I think that's an amazing part of oncology and a clinic like ours in a community this size.”
